Abstract (en)

[origin: EP1964786A1] The sachet has a closing/opening unit (20) fixed permanently on a sheet (12), and a permanent gluing unit (40) gluing another sheet (14) on the closing/opening units, where the sheets are extended by a flap. A glue strip of each gluing units is coated with a removable protective cover (50), and opening sections (23, 25) of the closing/opening units are borne by respective support webs and associated with an actuating slider. The support webs are connected with each other by a connecting strip (28).
