Abstract (en)  
[origin: EP1965402A2] The control has a housing (10) and a printed circuit board (12). The printed circuit board comprises a switch (16) and the housing has a medium for transmission (22) of an operation of the control on the switch of the printed circuit board. The medium for transmission of an operation on the control side has a pressure point (24), which lies offside of the operating alignment of the switch.
