Abstract (en)  
[origin: WO2007009767A2] The invention relates to a capacitive rain sensor (1) for a motor vehicle, said sensor consisting of a printed circuit board (5) comprising sensor structures (2, 3) which are fitted thereto, and electronic components (6). The sensor structures (2, 3) and the electronic components (6) are arranged on different sides of the printed circuit board (5).
