Abstract (en)
[origin: EP1967662A1] Sanitary arrangement comprises a shower head for introducing water and having an illuminating device (102) with light-emitting elements (86) for coupling light in the water curtain. Preferred Features: The light-emitting elements are arranged along an outlet slot (32). The illuminating device comprises a support (88) for supporting the light-emitting elements. The support is reflective. The illuminating device has a unit (94) for removing heat from the light-emitting elements.
