Abstract (en)
[origin: US2007155489A1] A Location Device Platform (LDP) Client 110 and LDP Server 220 enable location services for any physical item. In one mode, the item is or comprises wireless communications device (cell phone, PDA, etc.) configured for the purposes of wagering. Since wagering is controlled by local or state regulations, the location of legal wagering is typically confined to enclosed areas such as casinos, riverboats, parimutuel tracks, or assigned off-site locations. Use of the LPD capabilities allows for wagering to take place anywhere under the control of a regulatory body.
