Abstract (en)
[origin: EP1970624A2] The assembly has an evaporator medium carrier (20), and a porous evaporator medium (30) with a majority of evaporator medium points (32, 34, 46, 48) provided at a side of the evaporator medium carrier to be positioned. The evaporator medium faces an evaporator chamber, where all evaporator medium points are formed with a fabric material. The evaporator medium point (32) provides an evaporator medium surface (36) to be positioned at the evaporator chamber. The evaporator medium points are formed with metal threads.
