Abstract (en)
[origin: WO2007075798A2] The present invention relates to methods and systems for the delivery of a corticosteroid comprising (1) an inhalable aqueous mixture comprising a corticosteroid and a solubility enhancer and (2) an inhalable nebulizer, wherein the delivery of the aqueous mixture comprising the corticosteroid by the nebulizer results in an enhanced pharmacokinetic profile of the corticosteroid as compared to conventional inhalable therapies.
