Abstract (en)
[origin: GB2431341A] A shower base assembly comprises a base with an outlet opening 12 for drainage, and a drain plate 14 for fitting in the outlet opening. The plate 14 itself has a drain opening 16 for directing water to discharge ducting. The opening 16 is located eccentrically on the drain plate 14. The plate can be adapted to fit at the outlet opening 12 in different rotational orientations to locate the drain opening 16 at different positions relative to the outlet opening axis.
