Abstract (en)
[origin: EP1975334A2] The invention relates to a prefabricated panel for wall construction, of the type formed by a base layer and another stone layer or the like, defining the visible face (104), in which the layer forming the visible face [104] of the panel [1] has a plurality of blocks or slabs (3) on the base layer (102), attached to one another and occupying virtually the entire contour of the mold, with the desired format for the panels and the inside being tightly filled with said blocks or slabs (103).
