Abstract (en)
Strut with stripping mechanism which comprises an outer telescopic tube (1) and an inner telescopic tube (2), the outer tube (1) having a threaded portion (3) which has two diametrically opposing slides (10) to house a pin (12) which is, in turn, housed in two diametrically opposing orifices (11) which the inner tube (2) has, having a nut (8) which is screwed in the threaded portion (3), and which holds an anchoring piece (13) which comprises an upper notch (15) and a lower notch (16), positioned at different levels, allowing said anchoring piece (13) to move in a direction perpendicular to the outer tube (1) and be placed in a locked position, wherein the pin (12) is in contact with the upper notch (15), and an unlocked position wherein the pin (12) is in contact with the lower notch (16).
