Abstract (en)

[origin: WO2007083042A2] The present invention relates to a diffuser of volatile substances, provided with a holder for containing a substrate comprising the volatile substance, and means of ventilation for setting up a movement of air through the substrate, in which said diffuser has power supply means for driving the means of ventilation from an electric current, and in which these power supply means are suitable for insertion into and activation by the cigarette lighter of a vehicle.
