Abstract (en)

[origin: WO2007085688A1] The invention relates to a method for processing and supplying coating colour used for coating a fibrous web to a coating device (5). In the method, the coating colour from coating colour production is delivered to a storage tank (1), from where it is taken to the degassing stage (2), and from there further to a supply tank (4) arranged in conjunction with the coating device (5).
