Abstract (en)

[origin: US2008199692A1] The invention relates to an adhesive safety strap 1 and a method for its production, wherein a given length is separated from an adhesive packaging band with a carrier layer 2 made from a material that can be processed with a laser and an adhesive layer 3, in order to form an adhesive strap; and a slot geometry, which cuts completely through the carrier layer 2, is formed in this adhesive strap by means of a laser after being attached to a package, wherein this slot geometry is defined by one or more slots 5 of a given profile and a width defined by the material removal, and also optionally by their relative arrangement.
