Abstract (en)
[origin: DE102006003141A1] In spraying (2)/sucking (3) chambers working in an operating hood (1) there are holding-down/clamping rollers (7,7') on the bottom end of the sucking chamber. The holding-down/clamping rollers, the sucking chamber and guide rods (14) represent a self-adjusting springy sucking unit with height movement and automatically adapt to different strip thicknesses.
