Abstract (en)

[origin: EP1980675A1] Alignment components (8) are located in the interior of the frame. At least one of these runs under the upper edge (6a) of an adjacent wall section (6) and its upper surfaces, when the frame has been installed lie in a plane which slopes relative to the horizontal plane. As a result, the concrete layer (16) cast into the interior of the frame, or a layer applied over such a concrete layer, especially a screed layer, becomes drawn along the alignment components (8). At least one alignment component (8) is fastened to the inner side of the wall section : An independent claim IS INCLUDED FOR the method of making the balcony.
