Abstract (en)
[origin: WO2007090614A1] The present invention relates to compositions containing fat-soluble active ingredients and/or colorants in a matrix based on improved modified polysaccharides, i.e. modified polysaccharides where parts were separated, and to a process for preparing these compositions as well as to these improved modified polysaccharides themselves and a process for the manufacture thereof. The present invention further relates to the use of the compositions of this invention for the enrichment, fortification and/or for the coloration of food, beverages, animal feed, cosmetics and pharmaceutical compositions and to such food, beverages, animal feed, cosmetics and pharmaceutical compositions themselves.
