Abstract (en)

[origin: WO2007090299A1] The fitting arrangement for two angular sliding doors (11,13) of a cabinet (1) which run one above the other comprises a top running rail (17) having two roller tracks (51,53) lying one above the other and a bottom running rail (15) having two roller tracks (29,31) lying side by side. The bottom running rail (15) is fastened essentially out of sight under the base (9) of the cabinet (1). The two sliding doors (11,13) can be adjusted by eccentrics (43, 65) for the mutual adjustment of the running rollers (33,55,57).
