Abstract (en)

[origin: WO2007090300A1] The fitting arrangement for two U-shaped sliding doors (11,13) of a cabinet (1) which run one above the other comprises bottom running rails (15) having two respective roller tracks (29,31) lying side by side. The bottom running rails (15) are fastened essentially out of sight under the base (9) of the cabinet (1). The two sliding doors (11,13) can be adjusted by eccentrics (43, 65) for the mutual adjustment of the running rollers (33).
