Abstract (en)  
[origin: EP1983124A2] The concrete prefabricated parts, especially concrete floor slabs for multi-storey car parks, has a watertight covering (44,46) provided on the edge of the prefabricated component, and lines the projecting upper region (34,36) from the bottom. The covering is cast with the prefabricated parts and may consist of plastic. The covering may be embedded into the concrete mass by at least one edge (52,54). On its outer surfaces, the covering has anchoring components (48,50) for anchoring into the adjacent concrete mass.
