Abstract (en)
[origin: EP1983130A2] The foundation has a support (2) comprising assembly recesses (9) opened on a circumference at a lower end to an outside. An assembly insert (5) is set in concrete into the assembly recesses, and is fixed with a core rod (13) on the support. The assembly insert is provided with sections, and threaded bolts are plugged on a foundation plate (1) by the sections in order to fasten with a nut of the support on the plate. The nut is screwed onto the threaded bolts, and is inserted into the assembly recesses.
