Abstract (en)  
The furniture has a table top (1) resting on a C shaped support element constituted by a flexible and deformable plate (2) that is folded in a form of C and maintained in a folded service position by two tie-bars or cables (4), where the tie-bars or cables are adjustable in length. The tie-bars or cables are provided with stops (5) at their ends connecting free ends (3) of the plate. The support element has a U shaped rigid angle-iron (6) surrounding the free ends (3) of the plate. The length of the tie-bars or cables is adjusted to adjust the height of the plate with respect to the ground.
