Abstract (en)

[origin: EP1985223A1] The support (40) has dish supporting areas (410, 420) including a structure comprising slots (411, 421) to receive dishes in the areas. The structure forms a rounded and curved surface that forms a concave shape extending over a plane of the support. The structure includes a series of hoops (412, 422) spaced from one another, and is made of a rigid plastic material. Stops are placed at an end of the hoops. The areas are arranged parallelly and side by side in width of a dish basket of a dishwasher.
