Abstract (en)  
[origin: EP1988222A1] The operating device (10) has at least one operating lever (12), especially a joystick, a final control device (22), at least one sensor (16) and a controller (14), whereby the operating lever can be operated with one hand and can adjust a state parameter of the truck that can be detected by the sensor and transferred to the control device. Independent claims are also included for the following: (A) an agricultural or industrial truck (B) and a method of controlling at least one state parameter for an agricultural or industrial truck.
