Abstract (en)
[origin: EP1988235A1] A water ride attraction arrangement according to the present invention comprises a ride volume (120) providing a ride surface (121) and a water guiding means (200) for providing a jet of water (390) to the ride surface. The water is taken from a water volume (190). The ride volume is suitable for floating on the water volume and for aligning the ride surface with the water surface (191) of the water volume.
