Abstract (en)

[origin: WO2007091116A1] A blank (1) for packaging vials or similar elongated articles (20), comprises a plurality of adjacent blank sections that are foldable to provide a box (S) having a foldable internal support portion (10) for housing and retaining the vials by means of housing holes (16, 16') and flaps (26) extending from the supporting portion to engage the blank internal walls to keep the supporting portion it erected when the vials are inserted in their housing holes.
