Abstract (en)  
[origin: DE102006008350A1] The pressure measuring glow plug (1) for arranging in a chamber of an internal combustion engine, with a pressure sensor (24) to determine the prevailing pressure in the chamber, has a centering element (19) with a centering section (21). The centering element and the pressure sensor are assembled together, wherein the centering section of the centering element engages with the recess (43) of the pressure sensor for the positioning of the sensor.
