Abstract (en)
[origin: WO2007037697A1] Children's bag with a bag shaped main part (11) which is dimensioned to be used by a child of greater length and with an upper head underlay (12) with an integrated hood (13). The bag shaped main part (11) is arranged to be folded together to reduce the length and is provided with ribbons or cords for lacing. A wing (15, 16) is arranged at at least one side of the main part (11) , to protrude from the main part. It carries at least one cord or ribbon shaped fastening means (18 - 20); (21 - 23) for releasable fastening of the edge of the wing when this is in a covering position over a folded up lower section (24) of the main part (11) , to accommodate an infant.
