Abstract (en)

[origin: WO2007103810A2] This invention relates generally to devices that are used by law enforcement agencies and others for intentionally puncturing the rubber tires of a motor vehicle. More particularly, this invention relates to an assembly that can be placed in front of or in back of one or more tires of a stationary vehicle for the purpose of deploying one or more spikes from the assembly in the event the vehicle is moved. It also relates to a vehicle tire puncturing and deflating spike assembly that is compact, that protects the spikes and the person carrying them during storage and otherwise, and that is quickly and easily used in the field.
