Abstract (en)

[origin: EP1992251A1] The brush (1) has a bristle portion (2) with a central base body (5) and a set of bristles (6) that stick out from the base body and serve for an application of a cosmetic product. The bristles are provided with a high bristle density of 6 bristles per square millimeter and consist of a plastic material that has a shore hardness of more than 40. The bristles are provided next to each other on a circumferential area (7) of the base body with a base distance of 0.63 millimeter (mm) with respect to each other.
