Abstract (en)

[origin: EP1992432A1] The casting piston comprises a housing secured on a holder (3) that is arranged together at piston pole and movably arranged in a pressure casting chamber, and three centering elements arranged at the circumference of the housing through centering lenses that are secured in centering openings through fixing screws, and through centering plates (8") that are arranged in centering groove and fixed by clamping plates (12). The centering plates are equipped with recess (15) and clamping plates (12) with projection (16).
