Abstract (en)
The invention relates to a method for providing fragrance to a substrate, comprising the steps of: a) treating the substrate with a fragrance-containing composition; and b) treating the substrate with a fixative compound or mixture of fixative compounds selected from the group consisting of: - a fructan; - a starch hydrolysate having a dextrose equivalent ranging from 1 to 50; - a hydrophobically modified fructan; and - a hydrophobically modified starch hydrolysate, whereby step b) may be executed prior to, simultaneously with, and/or subsequent to the execution of step a). The invention further relates to fragrance-containing compositions and -substrates.
