Abstract (en)
[origin: EP1992724A1] The shaft has a built-in flame frame part (14) with a loom (1) containing a removable flame frame part (15) which complements and forms a perfect rectangular frame connected with a flame frame part. The removable flame frame part is removably connected to a horizontal support part (19, 20) of the shaft. The removable flame frame part is related with an attachment rail (33) connected with the built-in flame frame part by a removable coupling unit (35).
