Abstract (en)
[origin: EP1992757A2] In a closed position, segments (2) each place their front edge over a rear edge of a segment lying in front. Each segment has two profiled bodies (21,22) extending in the longitudinal direction of the segment. A covering element (20) fits between the profiled bodies. On the two front sides of the segments there are sealing elements (3), one or more of which has a water outlet opening at the height of the covering element.
