Abstract (en)

[origin: EP1994861A1] The pack (1) has vertical partitions (4) spaced with respect to each other in an adjustable manner, and shelves (7) mounted between the partitions. The partitions delimit vertical modules between them, where the pack is mounted in a movable manner on a base panel of a refrigerated cabinet between two lateral panels of the cabinet. Each shelf is supported by cleats (8'), mounted in a movable manner, at a chosen height, on a rear vertical edge (9') of corresponding partition through lateral slits (16') of the cleats formed on top of the rear edge.
