Abstract (en)
[origin: EP1995186A2] The packing has a tub-shaped container (1) consisting of a base part (3) and four side walls (13.1, 13.2, 13.3, 13.4), and a pad element that is inserted into an inner space (22) and fixed with objects in an inner side of the container, where a cover is provided for closing the container that is supported at two supporting elements in a pallet-like manner. The base part, side walls and the supporting elements are manufactured from a cardboard-like material e.g. bee board. The side walls (13.1, 13.2) are formed from a compressed flat rod that is arranged on the base part.
