Abstract (en)

Stabiliser supports for an articulated, a telescopic or an articulated-telescopic self-propelled elevator platform which is provided with a "basket" for housing the operators in order to carry out works at height, in such a way that the self-propelled elevator platform (1) incorporates four hydraulic supports (2) provided with manual or automatic stabilisation control means. The self-propelled elevator platform (1) can work on flat ground without stabiliser supports or on ground (3) with an inclination of more than 5° with stabiliser supports.
