Abstract (en)
An engine control device having a throttle body (1) provided with an air intake path, a sensor unit case (3) prepared in a process separate from that for the throttle body (1) and receiving a sensor unit, an ISC unit case (2) for receiving an ISC stepper motor (23) and ISC control valves (25-1, 25-2) that are prepared in processes separate from that for the throttle body (1), that are separate bodies from the sensor unit case (3), and that control the amount of air in idle speed, and screws (13, 14, 15, 18) for individually attaching the sensor unit case (3) and the ISC unit case (2) to the throttle body (1).
