Abstract (en)  
[origin: WO2007107229A1] Cable screw connection (10) for a plug-type connector (11) having a housing part (12), into which a cable (13) runs, which runs in an inner drilled hole of a tightening nut (25), which forms an upper and lower front face (29), of the cable screw connection (10), which tightening nut can be brought into screw-type engagement with the housing part (12), wherein the cable screw connection (10) also has a sealing element (160), which forms, adjacent to the lower front side (29) of the tightening nut (25), a sealing ring (31), which is connected to a cap part (33) via a connecting part (32), which cap part rests on the upper front face (28) in sealing fashion.
