Abstract (en)
A diffuser element (10) for reinforced concrete and glass tiles is produced in the form of a hollow glass tile defined by a quadrangular base plate (11) having a first surface (12) and a second surface (13) opposite the first from which a substantially perimetric edge (14) integrated with the base plate, protrudes, the second surface (13) having a deposit of one or more interstitial layers (21) inside the substantially perimetric edge (14).
