Abstract (en)

A gaming machine includes a gaming machine main body 99 that executes a game, a plurality of terminal devices 101 each of which receives a bet on the game and awards a payout, and a controller 102 programmed to set, as a start mark 88, a specific mark among the plurality of marks; to cause each of the terminal devices to store therein a mark bet on and a game value placed as a bet 101; to randomly select one mark from the plurality of marks; to award a payout when the mark bet on corresponds to the selected mark, based on the game value placed as a bet and a rate corresponding to the mark bet on; and to award a privilege when the selected mark is the star mark 88 and the mark bet is the star mark 88.
