Abstract (en)

[origin: EP1998402A1] The feed system (1) has a waveguide (7) and a converter, which is placed in a converter housing. The waveguide and the housing of the converter are formed as one-piece Housing. The integral housing (3) has a chamber, in which a printed circuit board of the converter is placed. The two uncoupling pins are aligned perpendicularly to each other. A coupling pin is arranged in an angular manner and lies parallel to the level of the printed circuit board.
