Abstract (en)
[origin: WO2007117430A2] A beauty preparation toy is disclosed. The toy may include a base; at least a portion of a toy doll configured to be attached in an upright position to the base; and at least one cover connected to the base and configured to move relative to the base among a plurality of positions, including a covered position in which the at least one cover is adjacent to the base and, with the base, at least substantially encloses the at least a portion of a toy doll while the at least a portion of a toy doll is attached in the upright position to the base, and an uncovered position in which the at least one cover is spaced from the base relative to the covered position.
