Abstract (en)

[origin: WO2007108039A1] A fixing system comprising at least one upright, preferably in extruded aluminium, with special orientable brackets suitable for being restrained to the same upright, particularly suitable for the construction of structural facades of the hanging type, whether these provides rotule supports for the holding of perforated slabs or panes of glass or whether they have point-type supports with a ball joint for the holding of non-perforated slabs or panes of glass.
