Abstract (en)
Household refrigerator door of the type that comprises at least one shelf (2) supported on an interior vertical wall (1a) of said door (1), said shelf (2) comprising a flat base plate (3) made of glass or a similar material, and two lateral support pieces (4) fixed to lateral edges (1b) of the door (1), the base plate (3) being supported between said lateral support pieces (4). The lateral support pieces (4) comprise, on their interior surface (4b), a seating (8) in which is supported the transverse edge (3b) of the base plate (3), and a retention element (12) that projects from said interior surface (4b) and which comprises an extension (12a) with a substantially spherical surface that presses on said transverse edge (3b).
