Abstract (en)

[origin: EP2001090A2] The invention relates to a multiple extension cord for communications and power cables formed by at least one electrical cable (1), one telephone cable (2) and one television antenna cable (3), an insulating and flexible outer tubular body (5) housing them therein, leaving the fixed end and the free end (4) of each of the cables (1, 2, 3) exposed, and a casing (6) with electrical (7), telephone (8) and television antenna (9) outlets to which the fixed ends of the cables (1, 2, 3) are connected, the free ends (4) of said cables (1, 2, 3) being couplable to electrical (7), telephone (8), and television antenna (9) outlets arranged in an enclosure. The extension cord can additionally have additional cables such as a SCART connector (11), an HDMI cable (14), or additional feeder cables (13) for their connection to a SCART connector socket (12) or an HDMI socket (15) of electronic apparatus.
