Abstract (en)
[origin: WO2007107575A2] The invention relates to a hydraulic power screwdriver comprising a ratchet lever (16) driven by a hydraulic cylinder. According to the invention, said power screwdriver is provided with a friction brake (20) which operates continuously between the housing (10) and the output shaft (14). In this way, reversed rotations of the output shaft following the individual working strokes are avoided.
