Abstract (en)

[origin: WO2007115682A1] The invention relates to a distributor system having a mount apparatus (10) and a plurality of contact mounts (40) which are arranged in the mount apparatus (10), with the mount apparatus (10) having at least one holding device (11) in which at least one of the contact mounts (40) is held by a holding section (41) which fits into the holding device (11). The invention also relates to a method for production of a distributor system having a mount apparatus (10) and a plurality of contact mounts (40), which are arranged in the mount apparatus (10), having the following steps: provision of a mount apparatus (10) with at least one holding device (11), provision of at least one contact mount (40) with a holding section (41) which fits into the holding device (11), and joining of the contact mount (40) into the holding device (11).
