Abstract (en)

[origin: CN101284442A] The invention relates to a method for running a printer (2), wherein via an automatic apparatus (36) jointly, the control for a recorder of the printer (2) and the control for at least one printer module are performed. In addition, the invention relates to an automatic apparatus (36) which is formed by cooperatively operating with the printer (2), as a result of that, the function for controlling at least one printer module and the recorder are integrated within the automatic apparatus (36).
