Abstract (en)

A crane (10) for lifting loads which can be mounted on a corresponding vehicle (11) having a longitudinal axis (L), in particular a truck, comprising a support base (12) of the crane mounted on the vehicle (11), from which extend vehicle stabilizing means comprising an extending arm (14) carrying the ground support means (16). The extending stabilizer arm (14) is fixed to the support base (12) and extends from the support base (12) oriented at an angle (A) with respect to the longitudinal direction (L) of the vehicle.
