Abstract (en)

[origin: EP2003322A2] The device has a pump housing (10), where a pump head (12) is connected with the pump housing, and a fuel pump (16) is arranged in the pump housing. The fuel pump has an electronically commutating brushless motor. Control electronics (18) for the electronically commutating brushless motor is arranged in and/or at the pump head. A fuel filter is arranged in the pump housing, and the pump head exhibits a material with high heat conductivity.
